*"Coaches teach players. We teach coaches."*

Welcome!

As the State Technical Coordinator for New Hampshire, I would like to proudly welcome you to this National Soccer Coaches Association of America Special Topics course. By attending this outstanding educational session, you have shown your commitment to not only the NSCAA, but to your own professional development. Such a commitment should be a lifelong endeavor as educating oneself translates into personal growth. As we all grow and develop as American soccer coaches, our impact on the game in this country becomes more and more significant. Our ever expanding realm of knowledge means we can impact player development with the goal of seeing our American athletes become some of the best in the world.

This Special Topic course has been designed to focus on a very important issue in the game- understanding player development. At the conclusion of the day long course, coaches will have a complete understanding of the methodologies used at the various age levels. The NSCAA is proud of these types of course offerings. Be sure to visit [www.nscaa.com](http://www.nscaa.com) to learn all about our program of coaching education.

With that, enjoy your time in this NSCAA Special Topic course!

Sincerely,  
*Giovanni Pacini*  
Giovanni Pacini  
NSCAA State Technical Coordinator
